### K-12 Lessons About Bioscience Challenge 2011-12

Help us bring engaging, inexpensive experiments  
into the classroom so everyone can enjoy doing science.  
*Submit your favorites today!*

**Students,  
teachers, parents,  
scientists, and  
science enthusiasts:  
Send us your best  
experiments!**

Your experiments should

- be geared toward grades K-12
- use safe, easily available, inexpensive materials
- take 90 minutes (or less) of class time
- have at least one clear learning objective
- be related to health and life science, the mission of NIH\*

### What You Win

- An exclusive electronic badge to use online.
- Your name and experiment will appear in our free collection of procedures.

**Follow us  
on Twitter:  
@NIHSciEd.**

\*The National Institutes of Health mission is to seek fundamental knowledge about the nature and behavior of living systems and the application of that knowledge to enhance health, lengthen life, and reduce the burdens of illness and disability.

### When to Enter

Between now and December 1, 2011.  
Winners announced March 1, 2012.

### Who Can Enter

- U.S. and U.S.-territory residents.
- If you're under 18 years old, we'll need a parent-guardian consent form.

### How to Enter

**1**

Read the entry instructions at  
<http://LAB.challenge.gov>

**2**

Submit your entry form by  
**email** [LAB@science.education.nih.gov](mailto:LAB@science.education.nih.gov)  
**fax** 301-451-5431  
**mail** K-12 LAB Challenge  
Office of Science Education, NIH  
6100 Executive Boulevard, Suite 3E01  
Bethesda, MD 20892-7520
